

Senior Civil Engineer

PROVISIONAL APPOINTMENT:

*Permanent appointment requires successful completion, and placement, thru the Civil Service examination process.

This work involves performing civil engineering studies necessary for the development, upkeep, and improvement of County infrastructure. Responsibilities may include design, development and implementation of projects involving bridge and road construction, waste management, and traffic engineering. Supervision is exercised over subordinate engineering department personnel. This position differs from that of a Civil Engineer by virtue of expanded scope and level of responsibility. Work is performed under general direction of the Director of Engineering with wide latitude allowed for use of independent judgment in carrying out technical aspects of the work. A Senior Civil Engineer does related work as required.

MINIMUM QUALIFICATIONS:

Graduation from regionally accredited or New York State-registered college or university with baccalaureate degree in engineering; four years' practical engineering experience; and possession of a license and current registration issued by the New York State Education Department to practice as a professional engineer.

Interested applicants must complete a Civil Service Application and submit to:

Cattaraugus County Civil Service
303 Court Street
Little Valley, NY 14755

Applications are available at the
Cattaraugus County website:
